

## **Apprentice Electrician**

### **Position Overview**

We are hiring Apprentice Electricians (all levels) for industrial project work at sites across Western and Northern Canada. This role provides hands-on experience working alongside experienced journeypersons on active industrial sites while progressing through a structured apprenticeship.

This position is ideal for apprentices who want exposure to challenging industrial environments and are committed to learning the trade safely and professionally.

### **Apprentices May Support Electrical Work At**

- Mines and mine infrastructure
- Natural gas facilities and pipeline sites
- Pulp mills and forest products facilities
- Transportation, packaging, and processing facilities
- Other industrial and resource-sector projects

### **Key Responsibilities**

- Assist with installation, maintenance, and modification of electrical systems
- Follow direction from forepersons and journeyperson electricians
- Learn and apply safe work practices and lockout procedures
- Read and assist with drawings and schematics as skills develop
- Participate in troubleshooting and problem-solving activities
- Complete required documentation, FLHAs, and job reports
- Maintain a clean, safe, and organized work area
- Represent Lakewood Electric professionally on site

### **Qualifications**

- Registered Apprentice Electrician (any year considered)
- Valid driver's licence
- Willingness to work at industrial and remote sites
- Strong work ethic and willingness to learn
- Safety-focused attitude and professional conduct
- Ability to work well as part of a crew
- Pre-site access drug and alcohol testing

- **Assets**
- Previous industrial or construction experience
- Elevated work platform, fall protection, first aid
- Experience working on resource-sector or remote sites
- Strong interest in long-term industrial electrical work

#### **Work Locations and Accommodations**

- Project sites across Western & Northern Canada
- Work may be local or require travel depending on the project
- Accommodations, camp, or living out allowance (LOA) are project-specific and will be discussed during the interview process

#### **Compensation and Benefits**

Wages are based on apprenticeship level and progress through the program.

#### **Hourly Pay Structure**

- Base hourly wage ranges from \$24.13/hour (1st year) up to \$39.48/hour (4th year)
- Vacation pay: 12.36% of base wage, paid hourly
- RRSP contribution:
- Not applicable in lower apprenticeship levels
- Up to \$3.56/hour at higher apprenticeship levels, depending on term

#### **Additional Benefits**

- 80% employer-paid extended medical & dental (eligibility dependent on status)
- Overtime in accordance with applicable regulations
- Structured apprenticeship progression
- Opportunity for long-term employment and advancement to Journey person
- Exposure to a wide range of industrial sites and projects

**Job Type:** Full-time, Apprenticeship

#### **How to Apply**

Please indicate the role you are applying for and send your cover letter and resume to [careers@lakewoodelectric.ca](mailto:careers@lakewoodelectric.ca).

Only candidates selected for an interview will be contacted. No phone calls please.
